GIRL: Thanks for your help with the light bulbs. If only more people knew LED bulbs use 10 percent of the energy a regular light bulb does.

GUY: Yeah, they would be saving energy and saving money.

GIRL: Speaking of saving money, I'm heading to Urban Outfitters they have a sale going on. Wanna come?

GUY: Well of course I do.

ANNCR: Conserving electric helps out the Earth while it helps out your wallet. But this isn't the only way to keep the Earth healthy. To find more ways you can help our environment, visit OurEarth.org.
